Dear Sir/Madam,

I hope this letter finds you well. My name is Prashansa Shrestha, and I am a Computer Engineering student at Pulchowk Campus, affiliated with Tribhuvan University. As an aspiring developer, I am keen to establish an online presence where I can showcase my projects, achievements, and technical expertise.

I am writing to formally request the domain name **prashansashrestha.com.np**. I intend to use this domain as a personal portfolio to present my work, share my experiences, and document my journey in the field of technology. This website will serve as a professional space for potential employers, collaborators, and others interested in my work to explore my projects and contributions.

I believe having a dedicated personal portfolio website will play a crucial role in my career development as a developer, helping me share my skills and ideas with a broader audience.

I have attached the required documents for your review, including my citizenship details, and I look forward to your favorable consideration of my request.

Thank you for your time and assistance. Please feel free to reach out to me if you require any additional information.

Yours sincerely,

Prashansa Shrestha
